

Primary Playground, "Parking des Pecheurs

This project aims to completely re-design our playground. We would like to install a new temporary surface as our current one has suffered from the heat over the years! The P.E. Department is also looking for semi permanent equipment, which can be removed for the Cinema D'Ete but which will remain in place over the school year. This includes a new set of multi functional goals/basket ball posts, mobile volleyball nets and equipment for individuals. Please contact Mr. Hill directly for more information.
